10:15 - 10:45	Networking Break			Maritime pavilion
10:45 - 12:15	Panel: The impact of women in the maritime community, opportunities and challenges	<p>Gradually, women have achieved more participation and representation in maritime community, by taking part in research, knowledge generation processes, navigation, port activities, technology development, fishing, among others. However, the struggle to access a sector that has traditionally been masculine still remains.</p> <p>Thus, considering the will to achieve Sustainable Development Goal 5: "Achieve gender equality and empower all women and girls"; It is expected that this panel represents an opportunity to highlight the great efforts that had been performed in different fields (Industry, Government, International Organizations and Academy), to change the general perception and break stereotypes of the role of women in maritime sector.</p> <p>Similarly, it is looking to discuss about the achievements they have got and the projects developed for women in the maritime community that contribute to the strengthening of maritime sector and the boost of countries sustainable economies.</p>	Moderator: Lena Gothberg, Consultant and Founder, Host & Producer of the Shipping Podcast, Gothenburg, Sweden	Auditorio Getsemani

SIDE EVENTS				
14:30 - 16:30	High Level Roundtable (by invitation)			
			Moderator: Eladio Peñaloza, Head Maritime Technology Cooperation Center (MTCC) of Latin America, City of Panama, Panama	

14:30 - 16:00	Panel: The SDGs in relation to the governance of the oceans from the maritime perspective	<p>The end of the Millennium Development Goals, set a challenge for the International System. The effects of climate change, the wide gaps between developed and less developed countries, the lack of access to drinking water, energy, decent housing, among others, were the main problems that motivated the construction and adoption of the current International Agenda: the Sustainable Development Goals or Agenda 2030.</p> <p>Aware of the importance of the 2030 Agenda, the maritime sector today faces the challenge of managing and using the world's oceans and their resources, in this case for maritime activities, in a healthy, productive, safe, protected and resilient way for the prosperity and well-being of humanity.</p> <p>Today the IMO in its Strategic Plan and many of the Member States make use of the concept of Maritime Governance, for this reason it is necessary to make a transversal analysis between the elements of Maritime Governance and the fulfillment of the SDGs.</p>	<p>Wendy Watson-Wright, Chief Executive Officer of the Ocean Frontier Institute (OFI), Halifax, Canada</p> <p>Jan Hoffmann, Chief of the Trade Logistics Branch, Division on Technology and Logistics, United Nations Conference on Trade and Development (UNCTAD), Geneva, Switzerland</p> <p>Maria Belén Espiñeira, Founder of International Transport & Logistics Legal Consultants and Vicepresident of Women's International Shipping and Trading Association (WISTA), Argentina</p> <p>Carlos Fanta de la Vega, Rear Admiral (Ret).
